

Description of Data Element 01417

NAME: Instructional Delivery Indicator <

NUMBER: 01417

FILES/TABLES: IAF

INTENT:

Program Review
 Planning & Analysis
 Funding & Fee Information

DEFINITION:

A flag to indicate that the student and the instructor are separated by time during some or all of the instruction.

EDIT:

DIAGNOSTIC MESSAGE	ERROR LEVEL
MISSING OR INVALID	CRITICAL
IAF	
FREQUENCY COUNTS WILL BE PERFORMED ON	FREQUENCY
IAF	

CODING INSTRUCTIONS:

If the course is conducted with students meeting at regularly scheduled times for 75% or more of planned instructional activities (site or time dependent, group-based courses) then code 'S' (synchronous).

If the course is conducted without scheduled space or time requirements for 75% or more of planned instructional activities then code 'A' (asynchronous).

If the course is conducted with both synchronous and asynchronous instructional activities when neither mode exceeds 75% of planned instructional activities then code 'M' (mixed).

TABLE VALUES:

S	Synchronous A course conducted with students meeting at regularly scheduled times for 75% or more of planned instructional activities (site or time dependent, group-based courses).
A	Asynchronous A course conducted without scheduled space or time

requirements for 75% or more of planned instructional activities (time and site independent).

M

Mixed

A course conducted using both synchronous and asynchronous instructional activities when neither mode exceeds 75% of planned instructional activities (note: a primarily synchronous course supplemented by a website does not qualify for this code).

Description of Data Element 01418

NAME: Technology Delivery Indicator

NUMBER: 01418

FILES/TABLES: IAF

INTENT:

Program Review
 Planning & Analysis
 Funding & Fee Information

DEFINITION:

A indicator of the type of technology that is being used by the instructor instead of face-to-face contact. Up to three occurrences will be available for coding. The first should be the primary method of delivery. If technology is only a supplemental tool for this course, the first occurrence of this element should be coded "N - none" and subsequent occurrences should be used to indicate the technology.

EDIT:

DIAGNOSTIC MESSAGE	ERROR LEVEL
MISSING OR INVALID	CRITICAL
IAF	
FREQUENCY COUNTS WILL BE PERFORMED ON	FREQUENCY
IAF	

CODING INSTRUCTIONS:

Code the technology associated with the delivery of this course section. If technology is only a supplemental tool for this course the first occurrence of this field should be coded "N - none" and the second and third values should be used to indicate the type of technology. If the course has both a technology and a face-to-face component, the delivery method associated with the majority of the instructional time should be coded in the first occurrence of this field.

TABLE VALUES:

A	Audiotapes or Audioconferencing	<
V	Video-Conferencing	<
	Real-time, interactive video and audio between two or	<

	more locations.	<
W	Web-Based or Internet Based	<
S	One-Way Video and Two-Way Audio	<
	Requiring specially equipped studio classrooms.	<
T	Telecourses	<
	Professionally produced courses broadcast on local TV	<
	channels.	<
C	Videotaped Classroom Sessions	<
	Either mailed to students or delivered via delayed	<
	broadcast.	<
M	Instructional Materials	<
	Videotapes, CD-ROM, DVD, print.	<
N	None (no technology is used).	<
