

Description of Data Element:

Number: 4055

Name: Distance Learning Delivery Indicator

Data Element is Used in the Following Reports:

- State Reports

Description:

Distance Learning indicates that the Student and Instructor are separated in time and/or place during 75% or more of the instruction. A table value should be used if 75% of planned instructional activities are delivered by this mode.

TABLE VALUES:

- M Materials - Primarily print-based materials for check-out or mail-out which may be packaged with other materials including CD-ROM, DVD, and video tapes which are not telecourses. Correspondence courses would fall into this category.
- P Live Broadcast - Course delivered by open broadcast (such as PBS), satellite, cable TV, ITFS, microwave that is synchronous or live. Transmission is one-way, although it could be interactive via phone or web/email access.
- Q Taped Courses/Telecourses - Pre-taped courses which have been licensed or locally produced and are delivered asynchronously. Videotapes may be checked out, broadcast, or delivered by some other system.
- R Videoconferencing, Compressed Video, ITV - Two-way, audio and video, synchronous, interactive between two or more locations.
- V Audio-tapes, Audio-conferencing, Radio - Primarily audio, no video. Audio may be made available synchronously (radio, audio-conference) or asynchronously (audio-tape).
- X Web-based or Internet-based Courses - Can include Web-TV, video streaming on the computer, or any other technology heretofore not yet thought of.
- H Hybrid - Those combinations of technology which do not fit the 75% rule. For example, a course requiring 40% class attendance, 30% Web, and 30% TV.
- N Not a Distance Learning Class.
